

## PROJECT OVERVIEW

- Suspended under monorail
- In roof of an active shopping centre
- Night shift

The Benchmark Scaffolding team prides itself on delivering some of the most unique projects in Australia. This project on the Gold Coast was no different. Our client came to us to provide access for the only active monorail in the country, located at the Gold Coast Casino. To add more complexity to the project, the scaffolding was also needed in the roof of an active shopping centre.
